Dear Somerset Cricket League,

On behalf of the Minehead branch of the British Heart Foundation (BHF) I would like to take this opportunity to thank you all for your support and efforts to raise a total of £856.42. Your generous donation is really appreciated by all at the BHF.

Over the past six decades, the BHF has played a leading role in cardiovascular research breakthroughs which have saved and improved the lives of people affected by heart and circulatory conditions. In the UK, the number of annual deaths from these conditions has halved since the BHF was established in 1961, an incredible transformation which simply would not have been possible without the generosity of our supporters.

However, there is still so much more to do, and the support of Somerset Cricket League will be invaluable as we look to the next six decades of progress. We currently fund approximately 2,000 talented researchers at nearly 50 institutions across the UK. Their research seeks new ways to prevent, diagnose and treat a whole spectrum of conditions affecting the heart and the flow of blood around the body. With your help, we can secure another sixty years of life-saving research and give hope to the millions of people affected by heart and circulatory diseases.

I want to thank you all again on behalf of everyone at the BHF. We are incredibly grateful to you for helping us raise the vital funds needed to continue our life-saving work.

With best wishes,

Sarah Burnett
